

Digital Literacy

Are your employees and students ready to work in today's computerised and online world? Find out NOW using new SkillCheck Digital Literacy tests from MCS.

Our Digital Literacy test package is perfect for assessing basic understanding of all aspects of computing and the Internet, including hardware, software, networks, electronic mail, browsing the Web and more!

Key Features:

- SkillCheck Digital Literacy assessments includes tests covering different areas of basic computer and Internet knowledge and use, including hardware, software, applications, networks, electronic mail, the Web, and more.
- Tests include both performance-based and knowledge-based questions designed to quickly determine an examinee's level of computer and Internet competence.
- With SkillCheck's advanced test-making option, you can create tests that include questions from the SkillCheck Digital Literacy test bank of over 250 questions, or create your own test questions to cover additional subjects.
- SkillCheck Digital Literacy tests are available for PCs and networks and on the Internet.

Advanced Test Making Capability

Using our advanced test customisation, a test administrator can create tests that combine questions from any of our test databases into a single test. And our ItemWriter question-development feature also allows test administrators to create their own test questions (multiple-choice, true-false, fill-in-the-blank and matching) and combine those questions with any of our questions to create a test that perfectly fits any need!

Advanced Reporting

Our advanced Microsoft Office reporting provides more information and more views of examinees test results, all at the click of a mouse. This advanced capability enables you to analyze a candidate's test performance in relation to that of other test takers. And profile reports can display data from all tests taken by a single candidate, or all candidates who have taken a particular test.

The SkillCheck Assessment Portfolio

The SkillCheck Assessment Portfolio includes tests on the widest range of competencies in Microsoft Office, clerical, medical, legal, call center, accounting, behavioural, computer literacy, IT, food services, retail sales and light industrial areas.
