

# IT Skills

## Can you afford to take chances when placing highly paid programmers and IT professionals?

SkillCheck IT Skills let you assess job candidates quickly and easily with programming and IT tests that work.

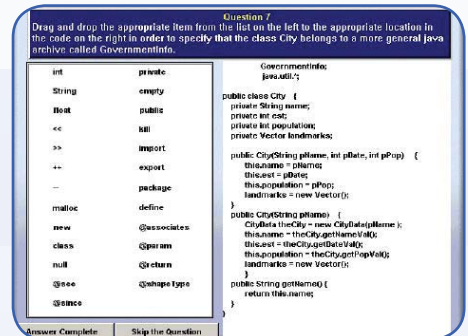

### Key Features

- While other IT skills testing products are limited to multiple-choice and other limited types of test questions, only SkillCheck IT Skills provides real-world code manipulating environments to test candidates' programming and IT skills.
- Advanced test making is available for Lotus Notes, allowing you to create customised Lotus Notes tests that meet your exact requirements.
- SkillCheck IT Skills tests are available for PCs, networks and via the World Wide Web!

### Available Products

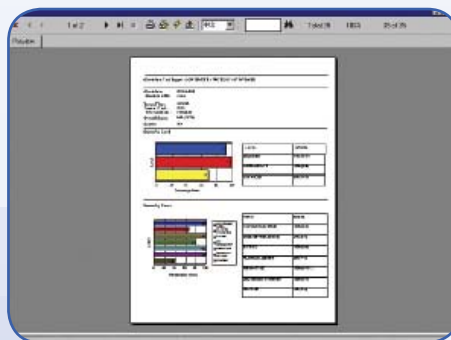

SkillCheck IT Skills tests are available for the following programming skills:

- IT Skills - C - Entry Level
- IT Skills - C++ - Entry Level
- IT Skills - HTML - Entry Level
- IT Skills - Java - Entry Level
- IT Skills - Lotus Notes - Administrator
- IT Skills - Lotus Notes - End User
- IT Skills - PERL - Entry Level

With SkillCheck IT Skills, examinees perform programming tasks in real-world programming environments

Test administrators can customise Lotus Notes tests any number of ways - even create their own questions
